**Skin Health Comes From the Blood**

**Even Slight Eruptions Such As Acne Should Be Treated.**

Pimples and other skin troubles do not always face the skin. They come nothing out from within. They are impurities. And if let alone or greased with salves they become chronic, simply because the skin is not able to get rid of them. It should be attacked with S. S. S. and the impurities in the blood thus rendered harmless.

The skin is but a net work of fine blood vessels. And it is a very delicate network upon which any influence in the blood that is a condition of ill health makes its first appearance in the skin. There are certain medicinal properties that the body can absorb through the skin. The influence of these properties is that of an antiseptic. This is why S. S. S., the best-known blood purifier, has such a positive action in the skin. It attacks one of the most important S. S. S. which continually stimulates cellular or glandular activity to select from the blood or from this net work of blood vessels in the skin the elements which it requires for regeneration.

This plagues acne, eruptions, lumps, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antiseptic power of S. S. S.

This is why skin troubles vanish so readily and why they do not return.

Under the influence of S. S. S. this fine net of vessels in the skin becomes constantly taking from the blood the nutrition required for healthy tissue and the cause of disease is just as constantly being removed.

This great antiseptic factor explained in a book on skin troubles sent by the Swift Specific Co., 537 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores, the bottle ready and banish all skin afflictions.
